Drawings

2. Figures 21-23 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.121(d)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Allowable Subject Matter

3. Claims 1-12 are allowed.
4. The following is an examiner's statement of reasons for allowance: none of prior art teach or suggest an image display apparatus for multiple tone display with number of gradation levels determined by number of bits of an image signal of m bit digital data, comprising a horizontal driver circuit and a vertical drive circuit, the vertical drive circuit being constituted of n in number of sequence circuits and logic operation circuits for outputs of the sequence circuits, which n is smaller than m, a period from inputting to the sequence circuit to outputting from the final stage being less than or equal to half of one frame period, or being shorter than a minimum value of sums of arbitrarily selected sequentially input n bit display periods, and at least one of the sequence circuits selectively is input a plurality of bit data as claimed in independent claims 1, 2 and 9, or the horizontal driver circuit being constituted of n in number of line data latch

circuits, which n is smaller than m , and at least one of the line data latch circuit being used with selectively inputting a plurality of bit data inputs, and a display signal for the display elements being output depending upon logical signals each contains a product of an output of the line data latch circuit per bit and a control signal dividing the horizontal scanning period as claimed in independent claims 5 and 10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
